

Force Motors launches monocoque bus

FORCE MOTORS HAS launched its monocoque bus, the Traveller Monobus. The company said this is the first such bus in the minibus 33- and 41-seater segment. The monocoque construction of the Monobus makes it robust with high structural strength and lightweight at the same time. Prasan Firodia, MD, Force Motors, said, the Traveller-Monobus is a fully in-house effort and it is tooled up and designed by the R&D team in Force Motors.
