

AUTO EXPO 2020: TOP TEN HIGHLIGHTS OF THIS YEAR'S EDITION

[Team OD](#) | Updated: February 06, 2020, 06:29 PM IST

While this edition of the Auto Expo may not have generated the kind of excitement and buzz as earlier ones, there have still been some highlights and here is our pick of the "10 Best".

[Force Gurkha](#)

Pune based Force Motors showed a modified version of the Force Gurkha. Always one of India's most capable off-road machines, the customised Force Gurkha for the adventurous off-roading type, features a lifted and substantially raised suspension, large wheels and tyres, roll bars that support a big roof carrier, side glass protection, lots of extra driving lights, etc. This Force Gurkha looks ready to go anywhere and is what macho Indian film stars like Tiger Shroff, Akshay Kumar and Ajay Devgn should be driving in their next action movie. We would love to go around Mumbai in it too ☹ as it will be ideal to give the irritating auto rickshaw wallahs a real scare!
